**Subject: Petition to Withdraw Holding of Abandonment for Application Number 10/065,998**

**37 CFR 1.181 Petition to Withdraw Holding of Abandonment**

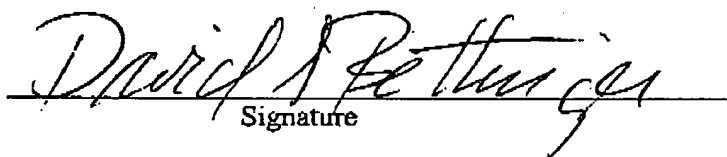

Application Number	10/065,998
Filing Date	12/09/2002
First Named Inventor	Bettinger, David S.
Art Unit	3727
Examiner Name	Joseph C. Merek

**Title: COMPOSITE TANK STABILIZER**

The Office believes that an incomplete response was sent to the Office Action dated 5/6/2004. The image file contains a 3 page document that was faxed to the Office on 06/11/2004. However, the response actually contained 8 pages, faxed on 06/11/2004, as the enclosed Auto-Reply receipt shows. All necessary parts of the response were included in the 8 pages. Therefore, we request that the holding of abandonment be withdrawn.

Note: All of the information listed on Page 1 of the response was correct, with the exception of the title of the invention, which was that of another pending application. We believe that there were sufficient identifiers to match the response to the application.

I certify that the following pages are a true copy of what was sent.
